Destin, Florida

# Save the Date!

# June 4-7

If you're a K-12 educator interested in teaching your students more about energy, **EMPOWER** is for you. This Energy Education Workshop provides an exciting opportunity to learn about electric generation and distribution, with a focus on energy education and fun ways to integrate it into your classroom using curriculum designed for your students.

Your attendance is made possible by a **scholarship** from **West Florida Electric Cooperative**.

#### **Other benefits include:**

- Continuing Education Credits for each participant who completes the workshop.
- The workshop registration, event lodging at the Hilton Sandestin Beach Golf Resort & Spa and meals at the event are included. Mileage to and from the workshop will also be reimbursed.
- Attendees receive a NEED Science of Energy Kit (\$300 value), a class-set of NEED Energy Infobooks (at grade level), access to all NEED Curriculum Guides and supplemental resources.
- Network with fellow educators.

Space is limited, so apply online at **NEED.org/empower** by **February 10**.
