

LET'S POWER SAVINGS

West Florida Electric Cooperative

FACT SHEET

West Florida Electric

A Touchstone Energy® Cooperative 

The power of human connections

West Florida Electric Cooperative (W FEC) is a non-profit Touchstone Energy® Cooperative owned by its members and locally operated. W FEC serves approximately 28,000 meters, providing dependable electricity & other services at competitive prices in Calhoun, Holmes, Jackson & Washington Counties in Northwest Florida.

We're powering savings by offering incentives to upgrade electric furnaces to high-efficiency heat pumps in new or existing manufactured homes. About 32% of W FEC's members are manufactured homeowners. Here in Florida, more than 10 percent of homeowners buy manufactured homes. These residences serve a real need for affordable housing, but there is also a need for these homes to be more energy-efficient. Since they typically come with an electric furnace, we're launching a program to help manufactured home buyers, as well as existing owners, upgrade to a high-efficiency heat pump. This will lower electric use during cold months & save participants an average of \$550 per year on heating costs! For all of us who are already watching every penny, \$550 per year over many years really adds up.

HOW IT WORKS:

New Manufactured Home

- WFEC will pay the difference up to the limit
- A WFEC representative will do an inspection after the unit is installed at the home
- Rebates & dealer incentives should be received within 2 weeks of the inspection

New Manufactured Homes:

- WFEC will pay the difference to the **manufactured home dealer** for an upgrade from an electric furnace to an air-source heat pump. The rebate will be paid directly to the manufactured home dealer on behalf of and for the benefit of the member.

We'll pay the difference not to exceed:

Up to \$400 for a 2 to 2.5 ton unit

Up to \$600 for a 3 to 4 ton unit

Up to \$700 for a 5 ton unit

+ \$100 Manufactured Home Dealer Incentive

Requirements:

- Model & serial number of heat pump
- Mobile home data plate for HVAC sizing
- Cost difference between straight cool & heat pump clearly written on invoice

For additional information about this program, contact **Rhonda Byrd-Lee** by emailing rbyrdlee@westflorida.coop or calling (800) 342-7400.
